SUMMARY

Strategy & Operations specialist with 3 years of full-time experience at Lenovo Group supporting digital transformation operations, project management systems, and executive reporting for a 200+ project, $250M+ portfolio; promoted from Associate to Specialist within the first year. Automated 6 leadership reports in Power BI, cutting manual prepare time by 10 hours per week. Currently pursuing a Master of Science in Business Analytics at University of Washington Foster School of Business (Graduating June 2027).

PROFESSIONAL EXPERIENCE

Lenovo Group *Beijing, China*

World's #1 PC maker, spanning data center, and AI solutions across 180+ markets

Strategy & Operations Specialist, Digital Transformation Office *08/2023 - 06/2026*

- **Budget control:** Kept a $250M+, 200+ project digital transformation portfolio within annual spending targets for 3 consecutive fiscal years by monitoring monthly cash spending and forecasting.
- **Workforce analytics:** Drove a 4% YoY improvement in workforce utilization by analyzing productivity metrics for 600+ employees by Excel and leading quarterly resource planning with data-driven reallocation recommendations.
- **Reporting automation:** Eliminated 6 manually produced PowerPoint decks per reporting cycle by independently building a real-time Power BI dashboard that consolidated project spending and execution-rate data for sector leadership.
- **Requirements delivery:** Completed the Anaplan (program planning platform) to MSPO (Microsoft Project Operations) migration in 4 months by delivering business status review, cross-system data field mapping, and function testing.
- **System operations:** Owned operational dashboards (Power BI) with 8 metrics and Anaplan operations, maintaining and investigating data-logic issues by SQL and resolving them to ensure complete and accurate reporting of data.

Source Code Capital *Beijing, China*

Leading venture capital firm, managing USD 7B in assets; 300+ investments including ByteDance, Meituan

Post-Investment Service Intern, Post-Investment Department *06/2021 - 11/2021*

- **Portfolio research:** Analyzed 15+ startups across technology, consumer, and healthcare sectors through desk research, performance analysis, and founder interviews to identify operational challenges and post-investment service needs.
- **Event operations:** Launched 3 CEO learning events for "Code Brain" platform and organized a corporate visit program connecting 9 portfolio companies with local enterprises and government.

Kingsoft WPS Office *Beijing, China*

Leading office software company, a major alternative to Microsoft Office; 600M+ monthly active users worldwide

Commercialization Operations Intern, Overseas Product Department *03/2021 - 06/2021*

- **Ad monetization:** Monitored daily advertising and monetization metrics for WPS Office global mobile apps and optimized traffic allocation, contributing to a 6% QoQ increase in advertising revenue.
- **Partner coordination:** Coordinated with e-commerce partners (Lazada) and demand-side platforms on campaign operations, including display content updates, contract coordination, and click-through performance analysis.
